FREEDOM TO FOCUS

The only corporate entity we need to make happy is you.

As a totally independent company, we're focused on delivering the polymers and support you need – nothing else. That independence has allowed us to build customer-focused business models that complement today's realities, but are also flexible and agile. So we can dispatch our technical support team to your location or realign our logistics in an instant.

What's Important?

Osterman values include giving back to the less fortunate in the communities we serve with the Osterman Community Foundation. The OCF provides financial relief to individuals confronted with unexpected hardships. It's a head start to help people get back on their feet and on the road to recovery. And it's a reflection of the care we take doing business.
